

# WHY SEE A TRAVEL CLINIC?

- Not just for vaccinations but a complete travel health service
- Keep up with the continual changes in Travel Medicine
- Avoid incorrect advice and unnecessary vaccinations
- Specific advice for individual situations
- WHO approved yellow fever vaccination centres
- On line database with continually updated information
- Malaria and other advice for areas at risk
- Save patients cost of vaccines – partly claimable on Extras health insurance
- One stop medical experience with everything on site

## When to see us

Overseas travellers, especially to Asia, Africa and South America, should seek medical advice at least 6 weeks prior to travel.

Our clients receive up to date advice, a free personalised destination report, pocket guide and international; vaccination certificate

### Recommended by Choice magazine

*A report from CHOICE has found travellers seeking vaccinations are 'vulnerable to over servicing' when going to Doctors who are not up to date with their knowledge on travel medicine.*
